# LIQUI-PLEX<sup>®</sup>

## ZnMnB

F1289

### DIRECTIONS FOR USE

Apply LIQUI-PLEX ZnMnB as a foliar application and dilute in a minimum of 10 gal of water per acre. Foliar fertilization is intended as a supplement to a regular fertilization program and may not, by itself, provide all the nutrients normally required by plants. This product should be used on the basis of a soil and/or tissue analysis and the user should seek the advice of an agricultural representative or a professional agricultural consultant. When tank mixed with other chemicals, compatibility testing should be conducted prior to application.

Deficiency	Application Rate
Mild	16 oz/acre
Moderate	32 oz/acre
Severe	64 oz/acre

### SHAKE WELL BEFORE USE

**DANGER:** This product causes serious eye damage and may cause damage to organs through prolonged or repeated exposure (inhalation). Do not breathe vapors or spray. Always wear protective gloves and face protection. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do and continue rinsing. Immediately call a doctor or poison center. Seek medical attention if you feel unwell. Dispose of contents/container to hazardous or special waste collection point in accordance with local, regional, national and/or international regulation. Apply only to the intended application site. Do not apply directly to or near water, storm drains, gutters, sewers, drainage ditches or any impervious surface. Do not apply if heavy rain is expected. **KEEP OUT OF REACH OF CHILDREN**

**STORAGE:** Keep container tightly sealed when not in use. Store in a cool, dry place between 34° and 100° F. Do not store in direct sunlight. Do not store diluted product.

**WARNING:** LIQUI-PLEX ZnMnB is recommended for crops where boron may be deficient, however over-application may result in serious injury to sensitive crops. Information regarding the contents and levels of metals in this product is available on the internet at <https://www.aapfco.org/metals.html>
