NATURE'S BASICS™

2X

F1289

DIRECTIONS FOR USE

Apply NATURE'S BASICS 2X as a foliar application and dilute in a minimum of 10 gal of water per acre. Foliar fertilization is intended as a supplement to a regular fertilization program and may not, by itself, provide all the nutrients normally required by plants. The user should seek the advice of an agricultural representative of a professional agricultural consultant for specific application timings and rates. When tank mixed with other chemicals, compatibility testing should be conducted prior to application.

SHAKE WELL BEFORE USE

Crop	oz/acre	Application Timing
Alfalfa	10	Apply 10 days after cutting, when growth has appeared.
Cotton	10	Apply at pinhead square. Repeat at first flower. A third application 2 weeks later is recommended, depending on region and growing conditions
Peanut	10	Apply at R1/Early Bloom (approx. 35-40 days after planting). Repeat at R3/Swollen Peg (approx. 60-65 days after planting) and again at R5/Early Pod Fill (approx. 73-78 days after planting).
Soybean	10	Apply at R1/Early Bloom. Repeat at R3/Early Pod Development.

WARNING: Harmful if swallowed. Harmful if inhaled. Avoid breathing mist. Wash hands thoroughly after handling. Collect spillage. Do not eat, drink, or smoke when using this product. IF SWALLOWED: Call a POISON CENTER or doctor if you feel unwell. Dispose of contents/container to a licensed hazardous-waste disposal contractor or collection site except for empty clean containers which can be disposed of as non-hazardous waste. Apply only to the intended application site. Do not apply directly to or near water, storm drains, gutters, sewers, drainage ditches or any impervious surface. Do not apply if heavy rain is expected. KEEP OUT OF REACH OF CHILDREN

NATURE'S BASICS 2X is recommended for crops where boron may be deficient, however over-application may result in serious injury to sensitive crops. The use of the fertilizing material on any crops other than those recommended may result in serious injury to the crop(s). Information regarding the contents and levels of metals in this product is available on the internet at <https://www.aapfco.org/metals.html>

STORAGE: Keep container tightly sealed when not in use. Store in a cool, dry place between 34° and 100° F. Do not store in direct sunlight. Do not store diluted product.
