

HELM AGRO US, INC.

**FIFRA Section 24 (c) Special Local Need Label
FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF OREGON**

RO-NEET[®] HERBICIDE

EPA Reg. No. 74530-16

EPA SLN No. OR-140010

This label valid until December 31, 2024 or until otherwise amended, withdrawn, canceled, or suspended.

FOR USE ON SPINACH

ACTIVE INGREDIENT:

S-ethyl cyclohexylethylthiocarbamate 73.9%

INERT INGREDIENTS: 26.1%

TOTAL 100.0%

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not apply when weather conditions favor drift from target area. Do not contaminate water when disposing of equipment washwaters or rinsate.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This Section 24 (c) label and the EPA-registered RO-NEET HERBICIDE product label must be in possession of the user at the time of pesticide application.

Follow all applicable directions, restrictions and precautions on the EPA-registered label.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval (REI). The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Entry (including early entry that would otherwise be permitted under the WPS) by any person - other than a correctly trained and equipped handler who is performing a handling task permitted by the WPS - is PROHIBITED for 48 hours following applications. Do not allow entry by unprotected persons into the treated area until 48-hour period is expired and the warning signs are removed.

NOTIFICATION: Before the start of the application, notify workers of the application by warning them orally and by posting warning signs at entrances to the treated area. The signs must bear the skull and crossbones symbol and state: (1) “**DANGER/PELIGRO**”, (2) “**DO NOT ENTER/NO ENTRE**”, (3) the date and time of treatment, (4) “RO-NEET 6-E in use”, and (5) name, address, and telephone number of the applicator. Post the warning sign instead of the WPS sign for this application, but follow all WPS requirements pertaining to location, legibility, size, and timing of posting and removal.

Special Early Entry Exception: Workers may enter the treated area during the first 48 hours following application to plant crops, provided all of the following conditions are met:

(1) The special early entry workers must use motorized ground equipment that is equipped with an enclosed cab that meets the definition in the Worker Protection Standard for Agricultural Pesticides [40 CFR 170.240(d)(5) for dermal protection. In addition, these workers must:

- Wear the personal protective equipment required in the PPE section of this labeling for applicators,
- *Either* wear the type of respirator specified in the PPE section of this labeling or use an enclosed cab with a properly functioning ventilation system that is used and maintained according to the manufacturer’s written operating instructions and that is declared in writing by the manufacturer or by a government agency to provide at least as much respiratory protection as the type of respirator specified in the PPE section of this labeling.
- Be provided and have immediately available for use in an emergency when they must exit the cab in the treated area: chemical-resistant gloves, and, if using an enclosed cab that provides respiratory protection, a respirator of the type specified in the PPE section of this labeling,
- Take off any PPE that was worn in the treated area before reentering the cab, and
- Store all such PPE in a chemical-resistant container, such as a plastic bag, to prevent contamination of the inside of the cab.

(2) Employers of the special early entry workers must make sure that these workers:

- Have received training equivalent to WPS pesticide handler training before entering the treated area,
- Are provided with the specified type of respirator, and the respirator fits them correctly and is maintained as required in the WPS for handlers,
- Are provided all of the WPS protections for early entry workers, including PPE instructions, labeling information and instructions, decontamination sites, and duties related to providing, cleaning, and maintaining the PPE for early-entry workers.

SPINACH: Apply a surface broadcast application with ground application equipment prior to planting. Apply 0.34 to 0.50 gallons RO-NEET HERBICIDE (2-3 lbs. ai) per acre on sandy mineral soils only, in a minimum of 20 gallons of water. Immediately (within minutes) after application, thoroughly mix RO-NEET HERBICIDE into the soil to a depth of 2 to 3 inches using a finishing disk, harrow, rolling cultivator or similar implement capable of providing uniform incorporation.

WEEDS CONTROLLED: For List of Weeds Controlled See EPA-registered RO-NEET HERBICIDE Label.

RESTRICTIONS/RECAUTIONS:

Do NOT harvest spinach for 45 days following application of this product.

Do NOT apply this product through any type of irrigation system.

Do NOT make more than one (1) application per growing season.

Special Conditions and Disclaimer for use of RO-NEET HERBICIDE on Spinach.

HELM AGRO US, INC. intends that this Section 24(c) label be distributed only to end users and/or growers (and/or applicators acting on behalf of growers) who agree to the terms and conditions below, and agree in writing to the terms and conditions required including a waiver and release from all liability and indemnification by the user and/or grower of HELM AGRO US, INC. and others for failure to perform and crop damage from the use of RO-NEET HERBICIDE on spinach grown for canning. If such terms and conditions are unacceptable, return RO-NEET HERBICIDE at once unopened.

This product when used on spinach grown for canning may lead to crop injury, loss, or damage. HELM AGRO US, INC. recommends that the user and/or grower test this product in order to determine its suitability for such intended use. HELM AGRO US, INC. makes this product available to the user and/or grower solely to the extent the benefit and utility, in the sole opinion of the user and/or grower, outweigh, the extent of potential injury associated with the use of this product. The decision to use or not to use this product must be made by each individual user and/or grower on the basis of possible crop injury from RO-NEET HERBICIDE, the severity of weed infestation, the cost of alternative weed controls, and other factors. Because of the risk of failure to perform or crop damage, all such use is at the user's and/or grower's risk.

IMPORTANT: Read the entire Directions for Use and the Conditions of Sale and Warranty before using this product.

**CONDITIONS OF SALE
AND LIMITATION OF WARRANTY AND LIABILITY**

<p>NOTICE: Read the entire Directions for Use and Conditions of Sale and Limitation of Warranty and Liability before buying or using this product. If the terms are not acceptable, return the product at once, unopened, and the purchase price will be refunded.</p>

The Directions for Use of this product should be followed carefully. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as manner of use or application, weather or crop conditions, presence of other materials or other influencing factors in the use of the product, which are beyond the control of HELM AGRO or Seller. All such risks shall be assumed by Buyer and User, and Buyer and User agree to hold HELM AGRO and Seller harmless for any claims relating to such factors.

HELM AGRO warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use, subject to the inherent risks referred to above, when used in accordance with directions under normal use conditions. This warranty does not extend to the use of this product contrary to label instructions, or under abnormal conditions or under conditions not reasonably foreseeable to or beyond the control of Seller or HELM AGRO, and Buyer and User assume the risk of any such use. HELM AGRO MAKES NO WARRANTIES OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE NOR ANY OTHER EXPRESS OR IMPLIED WARRANTY EXCEPT AS STATED ABOVE.

To the extent consistent with applicable laws, in no event shall HELM AGRO or Seller be liable for any incidental, consequential or special damages resulting from the use or handling of this product. TO THE EXTENT CONSISTENT WITH APPLICABLE LAWS, THE EXCLUSIVE REMEDY OF THE USER OR BUYER, AND THE EXCLUSIVE LIABILITY OF HELM AGRO AND SELLER FOR ANY AND ALL CLAIMS, LOSSES, INJURIES OR DAMAGES (INCLUDING CLAIMS BASED ON BREACH OF WARRANTY, CONTRACT,

NEGLIGENCE, TORT, STRICT LIABILITY OR OTHERWISE) RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, SHALL BE THE RETURN OF THE PURCHASE PRICE OF THE PRODUCT OR, AT THE ELECTION OF HELM AGRO OR SELLER, THE REPLACEMENT OF THE PRODUCT.

HELM AGRO and Seller offer this product, and Buyer and User accept it, subject to the foregoing conditions of sale and limitations of warranty and of liability, which may not be modified except by written agreement signed by a duly authorized representative of HELM AGRO.
